

Product name: ENDORFY Meta RD
Product code: EY8A006

The ENDORFY Meta RD is your place in the world. We're serious – you'll never want to leave it because it's as comfortable as a bed in a five-star hotel. We've dressed it in a black airy fabric that looks good and make sure that your back doesn't get too hot. Even if you sit in it for several hours (of course our recommendation is to move around every once in a while). ;)

We've designed it to fit you in the best possible way. The ENDORFY Meta RD's backrest comprises five separate segments that effectively support your spine (physiotherapists all over the world over like this).

Plus, you can adjust height of the seat in a range of 400-460mm - it's held in place by a top-of-the-range gas cylinder with a static load capacity of up to 150 kg, so nothing will ever crunch under your thighs. You can also comfortably adjust the armrests (vertically, horizontally, and sideways) and headrests (pitch and height). And when you feel the urge to recline a little, the seat will adjust itself to your body's position.

As comfortable as a hotel bed

The Meta RD chair feels like a snug hotel bed. It is so comfortable that your back will thank you for taking care of it.

The secret is in the backrest, which comprises five separate segments that support the spine in strategic places (yup, we didn't forget even about the coccygeal section). We've tailored it to people between 1.60 and 1.85 m.

Everything Seat the way you like it

When you spend half your life at the computer, you need a chair that won't twist you around like a zombie in horror movie after a few hours of sitting down.

For this reason, we upholstered the Meta RD in cold-pressed foam that follows the shape of your body. Not only that, but every part of the chair is fully adjustable. You can change the seat height (400-460 mm), adjust the armrests (vertically, horizontally, and sideways), and trim the headrest (pitch and height). If you feel like leaning back a little, the seat will instantly adjust itself to the angle of your body's position, thanks to a unique synchronizing mechanism.

The entire structure is held in place by a class 4 gas cylinder made of steel that is capable of supporting static loads of up to 150 kg. Add to that the steel base and large castors with a nylon finish, and you get solid structure that we recommend for people up to 120 kg.

To put it simply – there's an MMA armchair fighter underneath you, keeping an eye on your safety.

A pleasantly cool breeze ;)

The Meta RD is an unbreakable chair. It's upholstered in a durable fabric that provides additional air circulation. You can sit in it for hours without worrying that you'll get hot like a cosplayer in a thrift-store costume.

ENDORFY Meta RD – main features:

- Unique design
- High quality fabric
- Wide range of adjustment

- Synchronous mechanism
- Highest-, 4-class gas lift

ENDORFY Meta RD – technical specifications:

- Product code: EY8A006
- EAN: 5903018666501
- Product type: gaming chair
- Colour: red
- Dimensions (H×W×L): 1300×690×640 mm
- Material: PU leather and fabric
- Backrest:
 - Height: 685 mm
 - Thickness: 60 mm
 - Inner width: 280 mm
 - Outer width: 470 mm
 - Minimum incline angle: 100°
 - Maximum incline angle: 125°
- Seat:
 - Minimum height (from ground level): 420 mm
 - Maximum height (from ground level): 500 mm
 - Inner width: 385 mm
 - Outer width: 575 mm
 - Thickness: 110 mm
 - Depth: 520 mm
 - Type of rocking mechanism: synchro TILT
- Armrests:
 - Minimum height: 285 mm
 - Maximum height: 355 mm
 - Rotation adjustment: yes
 - Position adjustment: yes (front, rear, left, right)
- Base:
 - Arm length: 330 mm
 - Gas Lift type: 175 mm Class 4
- Wheels:
 - Diameter: 60 mm
 - Material: nylon
- User:
 - Minimum height: 160 cm
 - Maximum height: 185 cm
 - Maximum weight: 120 kg
- Warranty: 24 months

ENDORFY Meta RD – logistics data:

- Retail box dimensions: 760×635×375 mm
- Weight (net): 20.100 kg
- Weight (gross): 23.300 kg

Set include:

- Meta RD gaming chair
- Assembly kit
- Safety manual
