DWS10 Series

Electric Sit-Stand Workstation

LUMI ergo

Easier & Better Ergonomics

Dual & Triple Monitor Application Included

Sit-stand workstations are one of the fastest growing segments in the ergonomic furniture market. They've become the easiest most versatile way to add sit-stand ability to most any desk.

The DWS10 Series makes the conversion to sit-stand even easier by providing a motorized movement that controls the height with the touch of a button.

The ergonomic design helps the user avoid poor posture by encouraging healthier work habits. Strength in design, quality components, and thorough testing make the DWS10 Series a solid choice in the world of sit-stand workstations.
